ARTISTS STATEMENT

“I enjoy communicating my visual impressions of our world through stone, metals and gemstones. I have always been fascinated by the creative process, and never tire of exploring new combinations of Art elements, Art principles and materials in creating my works of Art! Through this process I learn more about myself and the world I live in. The creative process continually challenges whom I am and how I do things, creating a commitment to quality craftsmanship and design exploration. When I can breathe a vision , into Materials, and it takes on a life of its own; this is what being an Artists is all about for me!
